

Want to know the difference between Glenn Hart and Gwen McPhail?

Here's some to consider:

Compare and contrast: **Glenn** versus **Gwen**:

Military service? **Glenn** - yes; **Gwen** - no

Glenn is an unapologetic Constitutional Conservative; **Gwen** is a Liberal Conservationist disguised as a moderate Republican;

Glenn is an Oconee County native descended from Oconeeans, **Gwen** is originally from Newberry SC and moved here to marry;

Glenn has run a profitable small business for 46 years with no government subsidies, **Gwen** married into farming family money and runs a farming business dependent on millions from the government to subsidize (of your hard earned tax dollars);

Glenn wants sewer south infrastructure to the I-85 corridor to support high-tech industry and high-paying technical jobs for all Oconeeans, **Gwen** opposes any economic development in the I-85 corridor and believes industry cannot coexist with farmers in southern Oconee County;

Glenn supports property rights and opposes top-down zoning in the county, **Gwen** supports zoning and wants to be able to tell her neighbors what they can and cannot do with their property;

Glenn fought against Communism in the Vietnam War, **Gwen** penned a "woke" book on the oppression of native Americans by the "white man's imperialism";

Glenn's policies will benefit ALL Oconeeans, **Gwen's** policies are myopically focused ONLY on the Southern Oconee County gentrified farming community;

Glenn opposes big government in all forms, **Gwen** benefits from and is a proponent of big government;

Glenn would never betray his fellow Conservatives, **Gwen** recently voted in a County Republican Party executive meeting to remove all Conservatives from the county party and silence them!

Glenn is an humble salt of the earth man who views himself as a regular guy, **Gwen** stated several times in a public meeting that "her middle name is not Dutton".

Glenn gives you the straightforward truth about sewer south and it's impact on southern Oconee County's farmlands, **Gwen** peddles false narratives about sewer souths impacts on southern oconee farms and uses fear tactics to influence people against economic development on the I-85 corridor;

Glenn doesn't want more student housing between Seneca and Clemson and voted against funding developers to do this; **Gwen** wants to give developers lots of sewer south money to do just that.

Glenn represents the people to the government, **Gwen** represents the government to the people;

In an open primary, always watch who the DEMOCRATS support- the **CONSERVATIVE Republicans** support **Glenn**, the **RINOs** and **DEMOCRATS** (including Jody Gaulin the **OCDP** chair herself) support **Gwen**!

Please share to get the word out!
